Thu 1st July: The Astrology of Countries in Crisis

We will give an introduction of how the astrology of countries can be used to give meaning to, or even forecast, significant events.

We will go on to look at country charts in relation to the major planetary aspects currently in progress. **Greece, North Korea, Iran** and the news of the day are likely to feature. We will also review our predictions of the **UK general election**. See also our talk later in the year on the astrology of the UK and its political parties.

Thu 15th July: The Wisdom & Creative Power of Dreams

Annabel Hollis has recorded her dreams for over 15 years and tonight she will share with us how this has strengthened the connection with her deepest self, and developed her creativity. She will share her ways of working with dreams, how to encourage access to them and glean meaning.

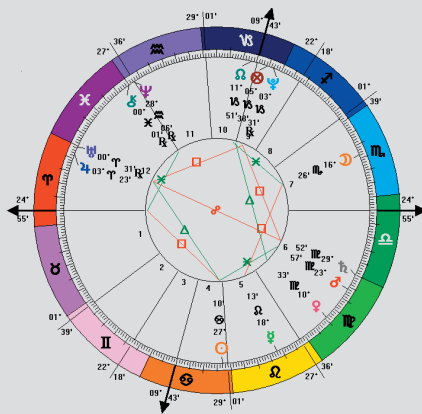

After the break, we will have an opportunity to share our own dreamtime experiences. So please feel free to bring a significant or puzzling dream experience to share with Annabel and the group.

Annabel currently leads a dream group in Stroud. Her background is in psychology, nursing and bodywork, including dance and a growing connection with the cycle of the year.

Thu 5th August: Nine Star Ki

This is a system of astrology based on an ancient book called the 'I Ching' which sees our world in terms of **9 year cycles** and the interplay of **yin and yang**. We each have a birth number, from 1-9, depending on our year of birth. Each number corresponds to a different element in the '5 transformations of energy' (fire, soil, metal, tree, and water), each with its own characteristics. We also each go through a different 'house' each year (from 1-9), influencing the things we do - some years being better for different activities than others. John will help us find out our own birth numbers, current 'house', and the characteristics associated with each one.

John Davis is a macrobiotic counsellor and teacher based in Gloucestershire. During the last 30 years he has been interested in diet and its effects. He attended the Kushi Institute, USA to study the macrobiotic approach to healing (cooking, diagnosis, shiatsu, qi-gong, do-in). As a result of this he has developed an interest in '9 star ki' astrology. He previously lived and worked in different parts of the UK and Europe as an English language teacher. www.devonmountain.com

AQUARIUS SEVERN LIBRARY: The library is available to members only, and charges 50p per book or tape per month - 20p for magazines. We now have over 125 of the best titles in astrology, including books by Robert Hand, Liz Greene, Stephen Arroyo, William Lilly, Bernadette Brady, Reinhold Ebertin, **and more...** We also subscribe to the bi-monthly **Astrological Association Journal** & **Mountain Astrologer** magazine.

Thu 19th August: The Dance of Venus & Mars

With Venus and Mars within a day of exact conjunction - part of a ten week dalliance these planets make this year, dancing low together in the evening sky - we will examine the relationship of these two archetypal forces. Deeply linked in mythology, these are aspects of female and male, co-operation and competition, languor and action, and pleasure.

How can we utilise this time to understand the astrological archetypes they represent? As characters in your birth chart : do they get on, fight or are just not on speaking terms ? Join us to explore how we can cultivate the Venus-Mars relationship within for a better understanding of our outer world.

Thu 2nd Sep: Communicating with your Chakras

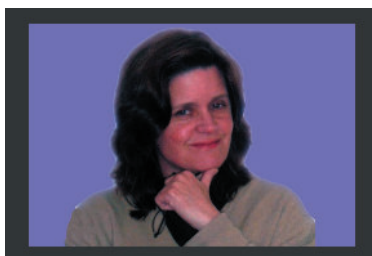

The mysterious Chakras, subtle, glowing energy pools aligned up our spines, are affected by, and affect, our physical, emotional and spiritual life. Mary Horsley reveals how the Chakras might communicate their state of balance, and various methods you can use to adjust them, including simple yoga postures. (She won't be asking you to tie yourself in knots or stand on your head!).

Her unique approach includes information on the so-called minor chakras of the meridian system. Loose comfortable clothing is suggested if you want to try the postures out.

Thu 16th Sep: The Ascendant

U.S. astrologer **Courtney Roberts** will be linking in with us live via video from Florida, to discuss her research into the Ascendant. Further details to follow.

What We Do...

Aquarius Severn is primarily an **Astrological** Society, with interests in related Aquarian Age subjects. Apart from regular talks, we run astrology classes at different levels, twice-yearly workshops with national speakers, an annual summer solstice field trip and a celebratory meal in the depths of Winter.

Our twice-monthly meetings are held from 8:00 to 10:00pm at 2 Wolseley Terrace, Cheltenham. Entry is now £4.00 for members, and £6.00 for non-members. Membership still costs only £15 per year, and allows access to our library of books & magazines.

Aquarius Severn is an open and friendly group - our talks attract people of all ages, and visitors are always welcome.
